II. Update on School Status

A.Executive Director's Report

Filed 990 for 2014. Comptroller's Audit is still undergoing, no material findings to date. Strong finances, projections are still holding. Good reserve. Parent-Teacher Conferences happened on election day, good attendance. Held Awards Assembly the following Friday. After school programs performed. We will have firmer data on interim assessments by the December meeting. On development side, we are applying for funds through Participatory Budgeting. Follow up meeting with Assembly member Dilan later this week. Thanksgiving Break begins next week, there will be two days of professional development. Kim Marshall will be visiting on the 24th to support curriculum planning and data analysis. Leticia Theodore-Greene left early.

B.Report from the Executive Committee

Received a call from BoardonTrack, has a meeting scheduled with Marci tomorrow. There is a huge amount of resources on their library, which is available to us.

C.Report from the Finance and Operations Committee

Just took a tour of the building. Finances are good and bills are up to date. Suggestions were made regarding having more cameras in lower traffic areas: basement, stairwells. Recommendation to use ConEd to review light efficiency. Recommendation to inform parents through the handbook of the precautions the school administration take regarding non-staff members working with the school.

D.Report from the Education Committee

Did not have a meeting, but have interviewed someone from Williamsburg Prep HS, she is willing to come in to give exposure to our scholars who are graduating.

E.Report from the Engagement and Outreach Committee

Parents continue to email periodically, recently requested a meeting with the Engagement Committee. Hope to schedule a time before next meeting. Did not raise particular issues, they are simply interested in discussing.

F.Report from the Development Committee

First architect Christoff sent a proposal to Tish. Marlena was to speak to her firm. Looking at different ideas to develop in the pool: non-profit incubator and swimming pool. Additionally, idea of having a rooftop playground on the 5th floor and have an atrium on the small rooftop; and possible work in the cafeteria. The idea is to get estimates to present to funders.

III. New Business

A.Introduction to our guest Dalia Oberlander

We met Dalia a few months ago, Nick was struck by her thoughtfulness. Nick was very impressed that Dalia has since come in and spent a few full days to observe programming. Dalia commented that she has been incredibly impressed with the school and that it is remarkable to have students who have a sense of soul and care. Would love to bring opportunities for those children. Discussed introducing students to opportunities beyond this environment, to entrepreneurs in the arts who come from similar backgrounds & now have larger businesses. If it is a right fit they could come in and work more closely with the students. There is a world of opportunities, it is a matter of finding out where their passions are. Interested in connecting students to students in different places. Mentioned that she is interested in this school because connecting our scholars can really have an

impact. She thinks we can really help and make a difference here. Heard the kids stories & wanted to be involved.
