Friend,

With just two weeks left to make a decision that will change our next 10 years, Brooklyn, we need you.

Our Message this month is clear: Take 10 minutes to answer 10 questions to complete the Census and make Brooklyn count 100 percent.

We have so much to gain if we get the count in. The Census determines accurate political representation and how much federal funding Brooklyn and New York City receives for health care, transportation, education, and various other needs. In short, more resources go to places where more people live. Your voices, your families, your communities are at stake.

We can do this.
